Work Experience

Software Engineer, Data May 2025 — Present
Kaspi.kz *Almaty, Kazakhstan*

- Owned transaction data delivery for credit risk, fraud, marketplace, finance and product teams.
- Built Kafka and Python ETL using Debezium CDC and PostgreSQL enrichment, processing 100M+ records daily. Data quality checks caught errors before delivery, while **ingestion delays fell 20%** and transactions reached applications in <1 second.
- **Migrated business-critical processes from OracleDB to PostgreSQL** (200+ tables), validating schema design and data accuracy for a 25% query-performance gain.
- **Cut on-call technician calls from 200+ to 30 per month** by analyzing Kafka topic lag with Python and Prometheus.

Frontend Engineer Sep 2024 — May 2025
Zimalab *Astana, Kazakhstan*

- Built reusable frontend components for DesignBundles, a merch design product, and engraving machine software, reducing feature delivery time by 25%

Software Engineer Jul 2022 — Jul 2023
Astana IT University, IT Department *Astana, Kazakhstan*

- **Designed and maintained a full-stack academic platform** (React + Java) used by 4,000+ monthly users, integrating scalable backend services and improving system usability and reliability.
- **Implemented secure LDAP-based SSO for university staff and students** using OpenLDAP and Spring Security, streamlining access management and reducing login-related support requests by 30%+.

Education

Dublin City University Sep 2023 — Sep 2024
M.Sc. Computing — Secure Software Engineering *Dublin, Ireland*

Astana IT University Sep 2020 — Jul 2023
B.Sc. in Information and Communication Technologies (Diploma with Honours) *Astana, Kazakhstan*

Projects

LeetCode Spaced Repetition https://github.com/olimeme/leetcode-spaced-repetition

- Jira-style board for practicing LeetCode problems on a spaced-repetition schedule, auto-fetching problem metadata via a Vercel serverless proxy to LeetCode's GraphQL API.

Maitools https://github.com/olimeme/maitools/

- Academic productivity suite - Pomodoro Timer, Kanban Board, and collaborative Whiteboard in one place.

Resume and Website updater https://github.com/olimeme/alibek-mombekov

- This website/resume was generated using this project. Update .yaml file which updates your portfolio website and resume.

Certificates and achievements

IELTS 7.5, British Council **Networking Essentials**, Cisco Networking Academy **Google UX Design**, Google

Skills

- **Languages**: Python, Go, JavaScript, Java, C++
- **Data & Streaming**: Apache Kafka, Apache Spark, Airflow, Google BigQuery, Starrocks
- **Databases**: PostgreSQL, Redis, Elasticsearch, OracleDB, MongoDB, MySQL
- **Observability**: Prometheus, Grafana
- **Frontend & Backend**: Next.js, React, Spring Boot
- **Infrastructure**: AWS, Docker, Kubernetes, Git, OpenMP, OpenCL
